

# Coronavirus (COVID – 19) Advice

@ NHS and HM Government

As you will be aware, the situation with the Coronavirus in the UK is changing from day to day. Advice indicates that there is no current need for large-scale closures of events or businesses, and that most people can continue to go to work, school and other public places.

It is therefore anticipated that SAIA training and events will continue as planned unless central government public health advice changes, or in response to specific localised conditions.

Should the need for SAIA or commissioning organisations to cancel or postpone events arise, we will endeavour to keep you updated, including via the website and social media. Should you have any questions or concerns regarding an event that you are booked onto, please contact our Development Manager - phone (07471 472703) or email at [admin@saia.org](mailto:admin@saia.org)

As this situation may fluctuate daily, please continue to check information available on government public health & NHS websites for the most up to date information and advice:

- **Health Protection Scotland** – Coronavirus (COVID-19) Guidance
- **NHS Information** – Coronavirus (COVID-19) Guidance

## Talking to children about Coronavirus

Lots of children might have worries about Coronavirus, what it is, and how they might catch it. In having conversations with children about Coronavirus, you may find the following resources helpful:

**BBC Newsround with Dr Chris & Dr Xand:** <https://www.bbc.co.uk/newsround/51342366>

**Wicklow Triple A Alliance** (*Wicklow Triple A Alliance page directly*) **has put together a social story** about children feeling anxious about the coronavirus. Please share with anyone who you think might benefit 🍷
