## Why Attachment Matters in Play

This session will look at the importance of play - the building block of human development, and the relationship between attachment and play.

Theraplay® is an attachment-based therapeutic approach that uses structured play to enhance attachment, self-esteem, trust in others and joyful engagement. We will look at the principles of TheraPlay®, and how it can be used by everyone living or working with children of all ages.

This will be a practical session, we will try out some of the techniques – so come ready to play!
